

INTEGRATED TRADES, ONE ACCOUNTABLE CONTRACTOR

Company profile, service capability and contact detail for procurement, prequalification and tender submissions.

01

COMPANY PROFILE

A PORT HEDLAND CONTRACTOR BUILT FOR COMMERCIAL AND MINING WORK

JBS Construction Group is an integrated commercial contractor based in Port Hedland, Western Australia. We bring plumbing and gas, mining pipework, pump work, hydrostatic testing, chlorination, civil, earthworks, landscaping and reticulation together under one contractor, one program and one point of accountability.

Our client base sits across mining head contractors, facility and property managers, and owners of commercial buildings and assets across the Pilbara and Kimberley. Work is scoped, documented and executed to head contractor safety and quality standards.
